Laos Project Feasibility Study Update: July 2010

Ord River Resources Limited (ASX: ORD) is pleased to provide shareholders and the market with a further update on the Laos Project. ORD holds a 49% interest in Sino Australian Resources (Laos) Co., Ltd (“SARCO”), a joint venture company between ORD and China Nonferrous Metal Industry’s Foreign Engineering and Construction Co., Ltd (“NFC”).

The following table summarises what has been completed in the previous week by project contractor Sinomine Resource Exploration Co., Ltd.

Project Name	Project Description	Actual Weekly Completion	Tenement
1:5000 Topographic Survey	For Ore Blocks 1, 12, 14, 15 and 16.	The Topographic Survey for ore blocks 1, 12, 14, 15 and 16 were 15% completed.	LSI
1:5000 Geologic Mapping	Geological mapping for LSI.	Geological mapping for LSI was completed by 15%.	LSI
1:25000 Geologic Map Surveying	Geologic Map Surveying for LSI.	Geologic Map Surveying for LSI was completed by 15%.	LSI
Survey of Exploratory Line Schedule	Survey of Exploratory Line Schedule for LSI.	Survey of Exploratory Line Schedule for LSI was completed by 10%.	LSI
1:25000 Hydrologic engineering and environmental geology Survey	Hydrologic engineering and environmental geology Survey for LSI.	Hydrologic engineering and environmental geology Survey for LSI was completed by 15%.	LSI
Sampling for rock-mineral determination	Sampling for rock-mineral determination in LSI.	30% of samples for rock-mineral determination was collected in LSI.	LSI
Sample processing	Sample processing for LSI.	Sample processing for LSI was 20% completed.	LSI
UXO	UXO for ore block 1 in Yuqida.	UXO for ore block 1 in Yuqida was completed by 20%.	Yuqida
Past drill hole analysis	Past drill hole analysis for Yuqida.	Past drill hole analysis for ore block 1 in Yuqida was 40% completed.	Yuqida
Traverse geological map survey	Traverse geological map survey for Yuqida.	Traverse geological map was surveyed 10km in Yuqida.	Yuqida
Construction of temporary shortcut and clear land	Constructing temporary shortcut and clearing land.	Temporary shortcut and clear land was constructed 3km.	Yuqida
1:5000 Topographic Survey	For Ore Block 1.	1:5000 Topographic Survey for ore Block 1 was 10% completed.	Yuqida
Preparation of Exploration Drilling	For Ore Block 1.	Preparation of Exploration Drilling for ore block 1 was 40% completed.	Yuqida
Exploration Drilling	For Ore Block 1.	Exploration Drilling for ore block 1 was 55% completed.	Yuqida

Construction of access and clearance of land for ore blocks.	Constructing access and clearing land for ore block 1.	Construction of access and clearance of land for ore block 1 was 100% completed.	Yuqida
Documentation of Geology, hydrogeology, engineering geology and environmental geology.	Documentation of Geology, hydrogeology, engineering geology and environmental geology for ore block 1.	Documentation of Geology, hydrogeology, engineering geology and environmental geology for ore block 1 was fully completed.	Yuqida
Sampling	Samples collecting and sending to Process Room.	Sampling and processing for exploration drilling of ore block 1 was fully completed.	Yuqida
Standard Penetration and Dynamic Sounding Test	Standard Penetration and Dynamic Sounding Testing.	Standard Penetration and Dynamic Sounding has been tested 3 times.	Yuqida

The feasibility study is progressing well. We are confident that the study will be a success. We look forward to updating our shareholders and the market on further progress in Laos.
